SKILLS SUMMARY

• Languages:	C, C++, Java, Python , JavaScript
• Libraries & Frameworks:	React.js, Next.js, Node.js, Express.js, Tailwind CSS, Framer Motion
• Tools/Platforms:	VS CODE, Git, GitHub, Docker
• Backend:	MySQL, PostgreSQL, RESTful APIs
• Soft Skills:	Team Collaboration, Problem-Solving, Adaptability, Communication, Project Management

PROJECTS

RYDEX - Real-Time Vehicle Booking Platform GITHUB LIVE	Jul 2026 - Present
• Built a full-stack, Uber-style ride-booking platform using Next.js, MongoDB, and Socket.io for real-time ride tracking and live GPS updates. • Designed a multi-role system (rider/driver/admin) with driver onboarding, video KYC (ZegoCloud), OTP-verified rides, and dual payments (Razorpay + cash) and performance tuning. • Integrated interactive maps (Leaflet), a responsive animated UI (Tailwind, Framer Motion), and deployed on Render with MongoDB Atlas.	

SMART CART - Full-Stack Budget-Aware eCommerce Platform GITHUB LIVE	Jul 2026 - Present
• Built a full-stack eCommerce platform (Next.js, Spring Boot, MySQL) with real-time budget tracking, JWT role-based auth, and Razorpay payment integration. • Implemented cart, order lifecycle, coupon/referral systems, product variants, and a 7-day return workflow with admin approval. • Deployed on Render and Aiven MySQL with performance optimizations and a Recharts-based admin analytics dashboard.	

FLIXGENIE - AI-Powered Movie Discovery Platform GITHUB LIVE	Aug 2026 - Present
• Developed a full-stack AI movie discovery platform using React, Redux, Firebase Auth, and Firestore, enabling authentication, personalized watchlists, and profile management. • Integrated Groq AI and OMDb APIs through a secure Express backend to deliver natural-language movie recommendations, AI-generated similar-movie suggestions, and trailer/full-movie playback via YouTube and Internet Archive APIs. • Designed a Netflix-inspired responsive UI with category filters, multilingual support, Framer Motion animations, and skeleton loaders; deployed live on Render.	

TRAINING / CERTIFICATIONS

DSA Placement Bootcamp – Master Data Structures and Algorithms LPU Certificate	Jun 2026 - Jul 2026
• Developed strong problem-solving and analytical skills through structured Data Structured and Algorithms practice. • Practiced identifying problem patterns, selecting appropriate algorithms, and optimizing solutions. • Solved placement and interview-oriented DSA problems using efficient approaches and optimization techniques.	

ACHIEVEMENTS

• Solved 150+ Data Structures and Algorithms problems on LeetCode & GeeksForGeeks, improving algorithmic and analytical skills LPU	Since Nov 2024
--	----------------

EDUCATION

• Lovely Professional University Bachelor of Technology - Computer Science and Engineering CGPA: 7.2	Punjab, India Since Aug 2024
• Jan Sahkari College Intermediate - MPC Percentage: 62%	Garhani, Bihar Jun 2021 – Mar 2023
