SUMMARY

Frontend Developer with 1+ years of hands-on experience building scalable and responsive web applications using React.js, Redux, and JavaScript. Skilled in Agile methodology, API integration (REST), responsive UI design, and code quality through unit testing (Jest). Eager to work across the full stack with interest in UI/UX design, applying REST APIs and scalable component architecture.

WORK EXPERIENCE

Software Engineer

July 2024 – Present

Conduent – Bengaluru, KA

- Developed and maintained modular React applications using Redux, ES6+, and REST APIs, ensuring UI performance and business logic alignment. Applied object-oriented design principles to structure reusable and modular components.
- Worked on React.js, Redux, JavaScript ES6, HTML5, CSS3, and responsive design to build dynamic and efficient web interfaces.
- Actively participated in team discussions, agile ceremonies, and peer reviews to improve code quality.

Frontend Development Intern

Ilmiya – US (Remote)

May 2023 – July 2023

- Designed and developed various website features for dynamic and responsive websites utilizing HTML, CSS, JavaScript, and React.
- Further improved site navigation by 30% through optimization of user experience.
- Integrated multiple APIs to improve the website's overall functionality and drive a 25% increase in website traffic within 2 months.

PROJECTS

FLIX GENIE – An AI-powered Movie Discovery Website ([LINK](#))

- Developed a movie discovery web app, Flix Genie, leveraging **React, Redux, and Tailwind CSS** for dynamic UI and **state management**, with **Firestore authentication** for user accounts and profile updates.
- Integrated **TMDB** and **OpenAI GPT APIs** for real-time movie recommendations, including multilingual support, trailer playback, and responsive design for seamless user experience.
- Implemented **custom hooks**, efficient API calls, and memoization techniques to optimize performance.
- Tech Stack – **React.js, Redux, Tailwind CSS, OpenAI, Firebase**

CRYPTOBUCKS – A Cryptocurrency Website using React.js ([LINK](#))

- Created dynamic cryptocurrency front-end project using **React, Context API, and Tailwind CSS**, featuring real-time data visualization with **Recharts library** for diverse time frames.
- Leveraged React.js and Context API to create seamless user experiences, incorporating Tailwind CSS for responsive design, resulting in an intuitive interface for tracking cryptocurrency data.
- Implemented Recharts library to display comprehensive graphs for 5+ time frames, enhancing the analytical capabilities.
- Tech Stack – **React.js, Tailwind CSS, Context API**

NEWSVISTA – A Real time News Website ([LINK](#))

- Built responsive news website using **React.js, JavaScript, and CSS**, showcasing real-time updates across diverse categories for an engaging user experience and comprehensive news coverage.
- Utilized React.js to create dynamic user interfaces, enabling seamless navigation and content browsing, while JavaScript facilitated real-time data updates, enhancing the site's relevance and timeliness.
- Designed intuitive user experience with CSS, ensuring readability and visual appeal, while offering extensive news coverage across various categories, demonstrating proficiency in front-end development and user-centric design principles.

EDUCATION

Bachelor of Engineering (BE) in Computer Science

JSS Academy of Technical Education • Bengaluru • 2024 • **8.18 CGPA**

Higher Secondary Education (12th - CBSE)

Delhi Public School • Mathura Road, New Delhi • 2019 • **90.6%**

Secondary Education (10th - ICSE)

Goethals Memorial School • Darjeeling • 2017 • **93.6%**

ACHIEVEMENTS

- Received Token of Appreciation in **BETSOL Campus Workshop**
- AIR 126/10000** in **Battle of Coders Hackathon**
- Solved 275+ questions on **GFG** | 100+ on **LeetCode** | 100+ on **HackerRank**
- CodeChef: 1602 (3*)** | **LeetCode: 1505 (2*)**
- Participated in **Inter-College (VTU) Basketball Tournaments**

SKILLS

- Language:** C, C++, JavaScript ES6, SQL
- Technologies:** HTML5, CSS3, Bootstrap, React.js, Redux, Tailwind CSS, Jest
- Developer Tools:** Git, GitHub, Webpack, Babel, NPM, VS Code, Chrome Dev Tools, Cross-browser compatibility
- Coursework:** Data Structures, Algorithms, OOPS, Operating Systems, Database Management
